

Fiberglass Utility Markers

Flexible Markers for Buried Utilities

TRI-FLEX

This 3-rail marker is one of the most common designs but has been improved by rounding the back rib. This allows for easier decal application and the stress from impacts is spread over a wider area.

Colors - White, Brown, Yellow, Orange, Red, Blue, Green and Purple

FLEX-TOUGH

Our newest marker is specially designed with a thicker middle section for easier installation into hard soil surfaces. This marker is perfect for applying decals on both sides.

Colors - White, Brown, Yellow, Orange, Red, Blue, Green and Purple

DUAL-FLEX

Because of its increased flexibility and flat area on both sides, the Dual-Flex marker is used primarily on trails and secondary roads where two direction marking is required. It is also ideal as an emergency 911 marker. Reflective house numbers are applied to both sides making it easier for emergency crews to find the right location.

Colors - White and Yellow

Length	Tri-Flex	Flex-Tough	Dual-Flex
62"	TF-62-__	FT-62-__	DF-62-__
66"	TF-66-__	FT-66-__	DF-66-__
72"	TF-72-__	FT-72-__	DF-72-__

Color Codes - add at the end of the part number:
00 = White, 01 = Brown, 02 = Yellow, 03 = Orange
04 = Red, 05 = Blue, 06 = Green, 07 = Purple

Specifications

Lengths - 62", 66" & 72" are standard. Custom lengths are available but may require a longer lead time.

Material - Fiberglass Reinforced Composite

Mechanical Properties

Tensile Strength - 75,000 p.s.i.
Compressive Strength - 50,000 p.s.i.
Flexural Strength - 60,000 p.s.i.
Flexural Modulus - 3,300,000

Temperature Resistance -80°F to +160°F

Weight % Glass Reinforcement - 60%

Fiberglass Markers

Flexible Posts For Any Situation

BOUNDARY/SURVEY MARKER

This economical 2.5" marker is designed for identifying boundary and survey lines. The double rib on the back provides extra support as well as easy installation of bolted signs.

Color - Orange

SIGN POST MARKER

The Sign Post Marker is our strongest post and designed to withstand increased wind loads from holding larger aluminum and fiberglass signs.

Colors - White and Brown

SNOW POLES / PEDESTAL MARKER

These posts come in both an elliptical and rectangular style. They can be attached to road signs or used with a decal to identify fire hydrants or other buried utilities or pedestals.

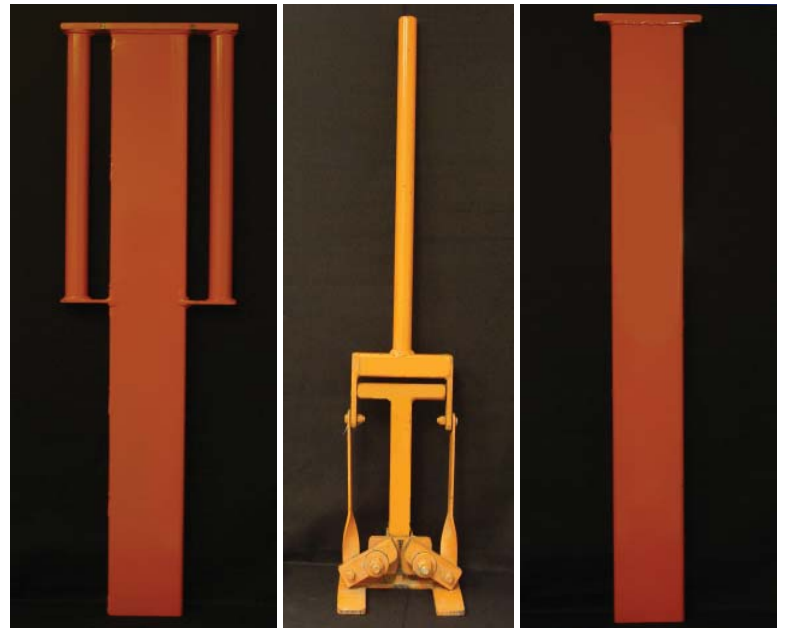

Colors - Orange

DECALS

Standard decals as well as custom decals with your company name, logo and phone number are available in a variety of colors to match the post.
